Dolan Fire update

We have been working with the federal forest in making sure our cultural resources in the Los Padres National Forest are not being impacted by fire equipment. The Indians adobe itself was foil wrapped. The orchard was weed wacked and a burrier was cleared around the cemetery and the cross was removed for its protection. While surveys for the fire, sadly it was noticed that there was graffiti damage to the Wagon Caves and the Native art there was destroyed. We all need to be protectors of our ancient homelands. If you see something, say something. Take down license plate numbers. We need to monitor our ancient lands. We can't rely on the Forest Service to do it for us, because what they are doing is not working.
